

One percent for oversight

Pay a lot of money to many levels of

Taxpayers

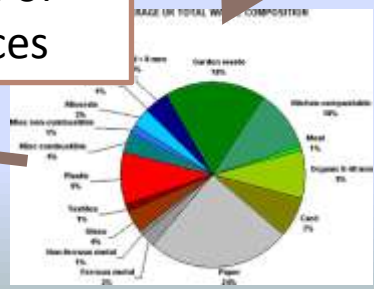

But do the people that pay the taxes, have any real input or oversight into how the money is spent?

Most of this money is spent at the discretion of politicians and staff

On a wide range of services

Taxpayer's money should be used in the most appropriate and effective way

Taxpayers should

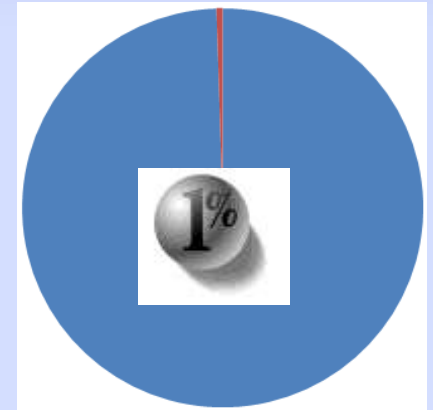

Have a bigger voice in the way tax money is spent

One % of tax revenue should be utilized in the public interest for independent oversight and accountability

'Objective Independent Oversight Associations' (OIOA) are formed to administer the funds

In the same context as a 'residents associations' provide a connection to municipal governments, the OIOA organization would be a link between the public's interests and any level of government or authority
